How to Report a Problem at Work

1. If hazard is an immediate danger, first clear others from the area
2. Report hazard to employer
3. Report hazard to Local
4. Report hazard to IATSE Hotline

SAFETY PASS PROGRAM

All of you have completed at least the Class "A", General Safety. You are given 90 days to complete Classes "A", "A2", "I", "P" and "P2". The schedule for the remaining classes is included for your convenience; however, as noted on the bottom, the schedule may change. Please call first. If you register online for the classes, allow 3 days for confirmation. CLASS "I", Respiratory Protection, is important to our safety as well as Class "P", Hazard Communications. The "A2" class covers environmental safety. Safety Pass has arranged the classes to allow you to schedule them back-to-back.

SAFETY IS NO ACCIDENT!!!
